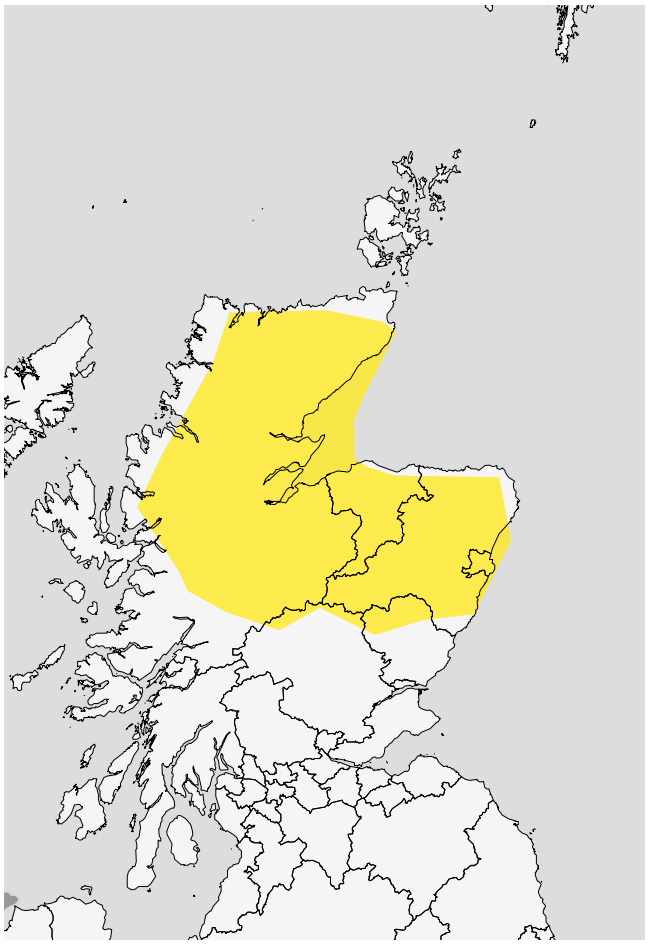
Yellow warning
Snow & Ice

Between
00:00 Tue 4 Jan 2022 and
09:00 Wed 5 Jan 2022



Frequent snow showers and icy stretches are expected on Tuesday, leading to travel disruption, particularly for higher routes.

What to expect

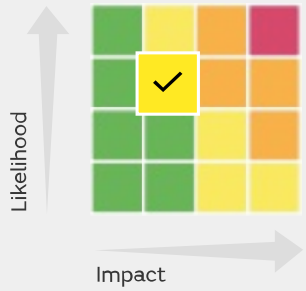
- Difficult driving conditions at times on higher routes is likely.
- Some injuries from slips and falls on icy surfaces
- Probably some icy patches on some untreated roads, pavements and cycle paths
- Some roads and railways likely to be affected with longer journey times by road, bus and train services

Further details

Showers, accompanied by strong winds, will become increasingly frequent and wintry through Tuesday at all levels, before dying away Wednesday morning.

Below 100 m, accumulations are most likely to be temporary and slushy. Above 200 m 2-5 cm is likely in places with 10-15 cm possible on higher routes.

Icy stretches are also expected in associated with these showers, particularly where they fall as sleet to low levels.



✓ Medium likelihood of low impacts

Yellow warning
Snow & Ice

Between
00:00 Tue 4 Jan 2022 and
09:00 Wed 5 Jan 2022

Further Details (continued)

In combination with winds gusting 50 to 60 mph at times temporary blizzard conditions and some drifting of snow on higher level routes is likely.

Reason for update

The hazards have been changed to a mix of snow and ice given the cold air and frequent wintry showers, with the Northern Isles removed from this warning. Whilst strong winds are likely the areas most affected by these are now covered by a separate wind warning.
